

# WOOD COUNTERTOPS FOR KITCHENS

Natural-finished wood varies in color, appearance and texture.  
Iroko darkens with time. Expect some wear with regular use.

INSTALL MUST ALLOW FOR EXPANSION AND CONTRACTION.

SEE INSTALLATION GUIDE FOR SIMPLE SCREW AND WASHER ATTACHMENT. OVERSIZED HOLES PERMIT INSTALL SCREWS TO MOVE WITH WOOD EXPANSION.

ACCLIMATE 24 HOURS BEFORE INSTALLATION.

SINKS AND CUTOUTS SHOULD NOT BE WITHIN 10" OF WORK TOP ENDS. WOOD LOSES MOISTURE THROUGH END GRAIN, MAKING THIS AREA MORE DRY AND BRITTLE.

SOME L-SHAPES CAN SHIP AS ONE PIECE (NO FIELD JOINTS REQUIRED).

RESISTS STAINS AND SPILLS, INCLUDING RED WINE.

SCRATCH REPAIR IS EASY WITH OUR HAND-RUBBED OIL FINISH.

HAND-RUBBED OIL FINISH IS MOISTURE RESISTANT. GREAT FOR SINK AREAS.

THERMAL BARRIER REQUIRED FOR MOST U/C APPLIANCES.

SPECIAL SHAPES ARE CUT PRECISELY ON CNC EQUIPMENT. TEMPLATES ARE NOT NORMALLY REQUIRED.

PROTECT FROM HOT POTS WITH POT-HOLDERS, TRIVETS OR OPTIONAL HEAT RODS.

EASY TO CUT OR SCRIBE TO FIT ON SITE.

90 DEGREE FIELD JOINTS (NOT MITER) TO PERMIT EXPANSION.

GO BIG! EURO-STAR IS AVAILABLE IN LENGTHS UP TO 16' 4" WITH NO FIELD JOINTS.

16' 4" MAX.

**CARE**  
CLEAN WITH MILD SOAP.

OIL ONCE A YEAR OR AS NEEDED.

SEE CARE INSTRUCTIONS.

36" MAX.  
10" MAX.

HAND-RUBBED OIL FINISH IS FOOD-PREP-SAFE (NATURALLY ANTI-BACTERIAL)

OVERHANG 10" MAX WITHOUT SUPPORTS.

AVOID THE "BARREL EFFECT" MOST OVERHANGS REQUIRE SUPPORT TO RESIST COMPRESSION SAG.

OUR RECESSED STEEL SUPPORT SYSTEM IS A GREAT ALTERNATIVE TO CORBELS OR BRACKETS.

Most orders ship by freight truck. Note any damage on driver's bill of lading.

**EURO-STAR**  
STRONGEST, FASTEST, BEST PRICE!

CUSTOM CONTINUOUS STAVE, WIDE PLANK, AND END GRAIN ALSO AVAILABLE.

## Profiles

Type A 1/8" Round Over Top & Bottom

Type B Ogee

\* Type C Reverse Knife

**Standard Woods:** Euro-Star 30mm/1.18" and 40mm/1.58" thicknesses, and also 60mm and 80mm (perimeter buildup). Standard woods are also available in specialty products including wide-plank and end-grain countertops, wall shelves, waterfall end panels and custom tables.

## CaféCountertops® Exclusive Euro-Star Construction

### Euro-Star: Enormously strong!

**Our Best Seller.** Scandinavian design and engineering make Euro-Star a smart option that is longer, stronger, more warp-and-crack-resistant, and generally superior to any other wood top available in North America. Stave width 1-5/8" \$

### Euro-Plank:

CaféCountertops' newest plank-style (full-stave) product. Available in 40mm/1.58" thickness. Wood may contain more natural variation. Lengths over 10 ft. limited by available lumber. Consistent 3.5" stave width for tailored appearance. \$\$

Wide Plank

End-Grain

Continuous Stave
